

# **G-ONE ROSE FOR ONE LIFE**

## **THE VISION**

The single Rose is one of the symbols that stands for life. A fresh flower represents the beauty and significance of the human life. The rose is certainly one of the most beautiful of God's creations.

By using the rose as a "visual aid", everyone will be reminded of the importance of protecting beautiful living things.

## **THE ACTION**

Procure the use of your Parish or other likely spot where you can get the most foot traffic.

Purchase roses from a local florist. By ordering a large quantity the price per flower will be more reasonable. You can usually get the roses at a good price if you plan this event immediately following a holiday (Valentine's Day, Mother's Day and such). Florists may have an abundance of roses and you could get them at a greatly reduced price. You may even get the flowers from different florists.

Make sure that it is manned, coordinating the schedule to coincide with the end of Mass or the height of the busiest time of the day, depending on the location.

Give one rose to each lady. Do not sell them but rather ask for a donation that the individual can afford. State that this event is raising money for your particular Pro-Life project be it Rachel's Vineyard, Gabriel Project or any local PCC (Pregnancy Care Center).
