

H- PRO-LIFE ROSARY IN YOUR CHURCH

THE VISION

Imagine seeing a large number of your Parish or better yet, the entire Parish, kneeling or sitting in Church praying a Rosary for the aborted children and their parents. Praying the Rosary is one of the most powerful weapons that a Catholic can wield. If we are to stop the murdering of our children, we must use all the weapons in our arsenal. Prayer can be the most powerful.

THE ACTION

Organizing a Rosary is no easy task. Because of the need for people to work long hours, being able to get a sizeable number in Church at the same time is extremely difficult. However, as with all good things, an impassioned effort on the part of the Pro-Life team of Knights can inspire others to become active also.

First you must procure the “blessing” of your Parish Priest, sometimes the hardest part. Assure him that we are pro life in all aspects but currently the country is killing children who have no one acting as their advocate. We are that advocate and praying the Rosary is not only a powerful prayer but it is also an uplifting personal experience that can increase the spirituality of all the Parishioners, whether they participate or not.

After making arrangements for day and time (and location if your Priest and/or Parish Council do not support your plans) for the prayer service to take place. ALL members of your Council MUST be made aware of the fact that each and everyone of them must attend in order to show the support of Pro Life by the Knights of Columbus.

Make announcements in Church weeks ahead of time. You can not organize anything successfully without ample time before hand. Put articles in the bulletin weeks before to make sure the parishioners know that they too are invited to participate.

Through personal contacts, begin asking individuals to participate and explain the purpose.
